The Boeing Airport Compatibility Group assists the aviation community to address their airport-related issues regarding our airplanes, providing Boeing and McDonnell Douglas commercial airplane product information needed to promote the continued and timely development of the world's airports.

### **Boeing: Airport Compatibility**

An airport is an aerodrome with extended facilities, mostly for commercial air transport. Airports often have facilities to store and maintain aircraft, and a control tower. An airport consists of a landing area, which comprises an aerially accessible open space including at least one operationally

active surface such as a runway for a plane to take off or a helipad, and often includes adjacent ...
