Water clocks, or clepsydrae, were commonly used in Ancient Greece following their introduction by Plato, who also invented a water-based alarm clock. One account of Plato's alarm clock describes it as depending on the nightly overflow of a vessel containing lead balls, which floated in a columnar vat.

History of timekeeping devices - Wikipedia

An Aisha named Imiya is fast asleep, dreaming of butterflies, flowers, and other cute things. Tomorrow, she has a HUGE maths test that she needs to pass, so it's vital that she get as much sleep as possible.
