Main section: Reinforcement#Operant conditioning In the behavioral sciences, the terms "positive" and "negative" refer when used in their strict technical sense to the nature of the action performed by the conditioner rather than to the responding operant's evaluation of that action and its consequence(s).

Reinforcement - Wikipedia

Loss of revenue following a denial of service attack during peak business hours can cost a small or medium business upwards of \$200K/hour. Coalition's provided denial of service (DDoS) mitigation service is always-on, and can easily be setup in under 4 minutes.
