

## *Dividing Whole Numbers By Decimals Worksheet*

### Dividing Whole Numbers By Decimals

Let's take 63 and divide it by 35. So the first thing that we might say is, OK, well, 35 doesn't go into 6. It does go into 63. It goes into 63 one time, because 2 times 35 is 70, so that's too big. So it goes one time. So let me write that. 1 times 35 is 35. And then if we were to subtract and we ...

### Dividing whole numbers to get a decimal (video) | Khan Academy

To divide decimal numbers: If the divisor is not a whole number, move decimal point to right to make it a whole number and move decimal point in dividend the same number of places.

### IXL | Divide decimals by whole numbers | 6th grade math

- [Voiceover] Let's figure out what 6.3 divided by 0.25 is. And when I look at something like this, the first thing that I think about is well, is there a way that I can rewrite this?

### Dividing decimals completely (video) | Khan Academy

Dividing with decimals works exactly like regular long division... with just one difference. Let's divide 2.35 by 5:. Set it up the usual way... Now, just go on as usual and work around the decimal points.

### How to Divide a Decimal by a Whole Number - Cool Math

Dividing decimals. Let's look at a different situation. Let's imagine you have a fence, and you want to plant 5 bushes in front of it. Your fence is 20 feet long. You'd like to space the bushes out equally, so you know you'll need to divide your fence into 5 equal sections. This means you'll need to divide 20 by 5.. In the lesson on division, we learned how to set up division expressions.

### Decimals: Multiplying and Dividing Decimals
