Welcome to the VA Centers of Excellence for Parkinson's disease. To address the needs of the Parkinson's disease Veteran population, in 2000, Congress urged VHA to establish six Parkinson's Disease Research, Education, and Clinical Centers (PADRECCs) for clinical care, education and research.

### **Parkinson's Disease Research, Education and Clinical ...**

Parkinson's disease (PD) is a long-term degenerative disorder of the central nervous system that mainly affects the motor system. As the disease worsens, non-motor symptoms become increasingly common. The symptoms generally come on slowly over time. Early in the disease, the most obvious are shaking, rigidity, slowness of movement, and difficulty with walking.

Introduction. Parkinson's disease, known in Ayurveda as "Kampavata," is a neurological disorder affecting 1% of the population over age 65 and is the fourth most common neurological degenerative disorder found in the elderly 1. Because this condition occurs more frequently in industrialized countries, some have speculated that this condition may be caused by environmental toxins 2.
