x Acute decompensated heart failure (ADHF) is a serious clinical problem and a condition requiring immediate diagnostics, supporting the therapeutic decision adequate to the specific ADHF mechanism. N-terminal pro-brain natriuretic peptide (NT-proBNP) is an established biochemical marker of heart failure, strongly related to hemodynamic status.

The table below shows some of the parameters of common superconductors. X:Y means material X doped with element Y, T C is the highest reported transition temperature in kelvins and H C is a critical magnetic field in tesla. "BCS" means whether or not the superconductivity is explained within the BCS theory

List of superconductors - Wikipedia

Most of the physical properties of superconductors vary from material to material, such as the heat capacity and the critical temperature, critical field, and critical current density at which superconductivity is destroyed.. On the other hand, there is a class of properties that are independent of the underlying material.

Effect of Matrix. Figures 3.26, 3.29 and 3.30 indicate that matrix type and related mechanical properties, especially tensile strength and hardness, exert considerable influence on fatigue strength. However, the decrease in endurance ratio with increasing tensile strength in Figures 3.26 indicates that increasing the tensile strength of Ductile Iron does not provide a proportionate increase in ...

Water table Perched water table Where the ground contains layers of permeable soil (e.g. sands) interspersed with layers of much lower permeability (e.g. clays) one or more perched water tables may develop and the overall distribution of pore pressure with depth may not be exclusively linear. Detection of perched water tables during site investigation is important, otherwise erroneous ...

WIRE FLAME SPRAY. The process is basically the spraying of molten metal onto a surface to provide a coating. Material in wire form is melted in a flame (Oxy-Acetylene flame most common) & atomised using compressed air to form a fine spray.
