From my point of view your project structure isn't as maven expects. In order to solve your problem do the following: First rename your package retail.web.mbean to main.java.retail.web.mbean (after the process your package will be still named retail.web.mbean), this will create the folder structure necessary for maven.; Right click on the project, Maven > Update Project Configuration.

Welcome to the second blog post about Swimming Naked. On 2016/08/15 I posted a Frank Answer About Swimming Naked. That article was a response to a negative comment about the practice made by a retired male teacher who took my Bennett High School class of 1961 on a tour of the old high school at a class reunion.
