

## *The Politics Of Policy Change*

### **The Politics Of Policy Change**

The complex politics of global warming results from numerous cofactors arising from the global economy's interdependence on carbon dioxide (CO<sub>2</sub>) emitting hydrocarbon energy sources and because CO<sub>2</sub> is directly implicated in global warming —making global warming a non-traditional environmental challenge.

In politics, gridlock or deadlock or political stalemate refers to a situation when there is difficulty passing laws that satisfy the needs of the people. A government is gridlocked when the ratio between bills passed and the agenda of the legislature decreases. Laws may be considered as the supply and the legislative agenda as demand.
