The Paleolithic diet, Paleo diet, caveman diet, or stone-age diet is a modern fad diet requiring the sole or predominant eating of foods presumed to have been available to humans during the Paleolithic era.. The digestive abilities of anatomically modern humans, however, are different from those of Paleolithic humans, which undermines the diet's core premise.

The 1940s were all about rationing, protein stretching, substitutions, rediscovering "grandma's foods", and making do with less. Home cooks made sugarless cookies, eggless cakes, and meatless meals. Cookbooks, magazines, government pamphlets, and food company brochures were full of creative ideas for stretching food supplies.
